## WHAT IS THE PRODUCT?

### Product Type:

This Fund is a Sub-Fund of Aria SICAV PLC which is an open-ended Collective Investment Scheme with variable share capital which was incorporated in Malta on 22 June 2016 under registration number SV415 and is authorised by the Malta Financial Services Authority as an UCITS.

### Maturity Date:

This Sub-Fund has no maturity date.

### Objectives:

The investment objective of the Sub-Fund is to deliver medium to long term capital appreciation.

**There is no guarantee that the investment objective of the Sub-Fund will be achieved and investment results may vary substantially over time.**

### Investment Policy:

The Sub-Fund will seek to achieve its investment objective through an active approach to asset selection and allocation. This approach will be based on an internal proprietary asset allocation model (the "Proprietary Model"). The Proprietary Model uses monthly inputs relating to macro-economic and risk factors to identify the sensitivity of each asset within its universe to changing macro-conditions and their exposure to risk factors. It then, in turn, generates a forward-looking estimate of each asset classes' return, volatility and covariance allowing it to determine an optimal asset allocation for current global market conditions.

On the basis of the above, the Proprietary Model will suggest weighting/s to different assets classes. Exposure constraints are in-built within the Proprietary Model such that asset allocation will always comply to the following broad asset class constraints: (a) equity exposure: 45%-65%; (b) fixed income exposure: 30%-50%; (c) other exposures: 5%-16%. Should market movements, subscriptions and/or redemptions disrupt the aforesaid allocations, the Sub-Fund's portfolio will generally be rebalanced within a period of one calendar month, generally at the next rebalance date.

The Investment Committee will then select specific instruments falling within the asset classes selected by the Proprietary model, which the Investment Committee considers will maximise performance of the Sub-Fund. The Investment Manager will have responsibility to execute day to day trades within the parameters set by the Investment Committee. As at the date of this Offering Supplement, the aforesaid instruments will comprise (but will not be limited to) of exchange traded funds, other types of collective investment schemes, exchange traded commodities and exchange traded futures.

When investing in exchange traded funds, the Sub-Fund will seek, where possible, to invest in share classes denominated in GBP, EUR and USD or in share classes denominated in other currencies to the extent that currency exposure can be adequately hedged.

The Sub-Fund, under normal market conditions, will look to rebalance in line with the Proprietary Model's allocation on a monthly basis.

In addition to the above, the Sub-Fund may invest, to a lesser extent in the following financial derivative instruments: contracts for difference, options, forwards, spot positions, swaps, certificate of deposits and/or futures which may be entered into for both hedging and investment purposes.

Investments in collective investments scheme will generally be EU regulated collective investment schemes. In the event that the Sub-Fund invests in Non-EU regulated collective schemes this shall be to a maximum of 10% of the Sub-Fund's NAV provided such Non-EU regulated collective scheme satisfies the requirements of the MFSA's UCITS rules. In the event that any investments are made in collective investment schemes with whom the Sub-Fund's Directors, Investment Committee Members or Investment Manager are associated with any subscription or redemption fee with regards to investments in such schemes shall be waived.

While the Investment Manager will look to ensure that the Sub-Fund invests via the investment instruments detailed above it reserves the right to alter the investment instruments utilised, in order to achieve the Sub-Fund objectives in the most effective and cost-efficient manner.

### Benchmark Rate:

The fund does not have a benchmark

### Dealing Frequency:

Investors may subscribe and redeem to units on a weekly basis.

### Distribution Policy:

Any income arising from the Sub-Fund is reinvested.

### Target Market (Suitable For):

This Sub-Fund is intended for investors who plan to stay invested for at least 5 years and are prepared to take on a medium level of risk of loss to their original capital in order to get a higher potential return.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN

Lower Risk

Typically lower  
rewards

Higher Risk

Typically higher  
rewards

The Summary Risk Indicator (SRI) is a guide to the level of risk of this product. It helps you assess risk and compare it with other products. It shows how likely it is that the product will lose money and whether the money you have invested has some form of protection.

The figure is based on 4 years of weekly performance data, where available. If 4 years of weekly data is not available for the Sub-Fund then the figure has been determined based on qualitative criteria limited to the nature of the product.

The risk indicator assumes you keep the product for the recommended holding period which can be found below. The risk can vary significantly if you cash in at a time, other than the end of the recommended holding period.

We have classified this Sub-Fund as 3 out of 7, which is medium risk. The Sub-Fund may be exposed to risks not included in the SRI including, but not limited to, the following:

**Instrument risk:** The Sub-Fund invests in securities that may go up or down daily for a variety of reasons including changes in interest rates, inflation expectations, perceived credit quality of the issuer, perceived value of underlying instrument or positive or adverse news

**Counterparty risk:** As the Sub-Fund may enter into derivative agreements there is a risk that other parties may fail to meet their obligations. This may lead to delays in receiving amounts due to the Sub-Fund, receiving less than is due or receiving nothing.

**Currency risk:** As the Sub-Fund invests in overseas securities, movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.

All Investment involves risk and you may receive back less than your investment amount. This Sub-Fund offers no guarantee against loss or that the Sub-Fund's objective will be attained. For a comprehensive list of risk factors that may apply to the investment, please refer to the offering supplement of the Sub-Fund. Please note that the share class risk category is not guaranteed and may change from time to time.

### Performance Scenarios

Scenarios	Investment amount (10,000)	1 year	3 years	5 years (Recommended Holding Period)
Stress Scenario	What you might get back after costs	6,407	6,383	6,495
	Average return each year	-35.93%	-13.90%	-8.27%
Unfavourable Scenario	What you might get back after costs	9,488	8,182	7,204
	Average return each year	-5.12%	-6.47%	-6.35%
Moderate Scenario	What you might get back after costs	10,679	11,062	10,471
	Average return each year	6.79%	3.42%	0.92%
Favourable Scenario	What you might get back after costs	11,989	14,674	14,941
	Average return each year	19.89%	13.64%	8.36%

There is no minimum guaranteed return. You could lose some or all of your investment.

**Unfavourable scenario:** This type of scenario occurred for an investment between 2014 -2024\*

**Moderate scenario:** This type of scenario occurred for an investment between 2014-2024\*

**Favourable scenario:** This type of scenario occurred for an investment between 2014-2024\*

\*The Sub-Fund is less than 10yrs old, performance prior to the Sub-Funds launch date (used in the simulations above) is based on the backdated performance of the 'AlphaPredictor Model' which is the proprietary model the Sub-Fund looks to implement on a monthly basis. Past performance, simulated or real is not an accurate guide to future performance.

This table shows the money you could get back over the next 5 year(s), under different scenarios, assuming that you invest 10,000.00 GBP. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions and may include simulated or benchmark data. Markets and subsequently Sub-Fund performance could be significantly different in the future.

The figures shown include all the costs of the product but may not include additional third-party fees applicable based on the manner in which you access the strategy as well as your personal tax situation, which may affect how much you get back.

Past Performance of any kind, actual or simulated, is not a reliable indicator of future performance. The scenarios shown are only an indication of some of the possible outcomes based on historical returns. Actual returns could be significantly lower than shown.

## WHAT HAPPENS IF THE INVESTMENT MANAGER IS UNABLE TO PAY OUT?

The Investment Manager is responsible for the management of the Sub-Fund, and does not typically hold assets of the Company (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network).

If the Investment Manager defaults, investors in the Sub-Fund would not face any financial losses. However, investors may suffer loss if the Company or the depositary is unable to pay out. Furthermore, the value of an investment and any income taken from it is not guaranteed and can go down as well as up, you may not get back the amount you originally invested. The Company or the Sub-Fund is not covered by an investor compensation scheme.

## WHAT ARE THE COSTS?

The table shows the amounts that are taken from your investment to cover different types of costs. The amounts shown here are illustrations based on a specific investment amount, taking into consideration different holding Periods. The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

Investment €10,000 Scenarios	if you cash in after 1 year	if you cash in after 5 years recommended holding period
	Total Costs	€ 899
Annual Cost Impact	8.99%	4.19%

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories. The table also shows the impact on return per year. We also assumed that 10,000 EUR is invested.

			If you exit after 1 year
One-Off Costs upon Entry or Exit	Entry Costs	The impact of the costs you pay when entering an investment. We do not charge an entry fee for this product	500 EUR
	Exit Costs	The impact of the costs of exiting your investment when it matures. We do not charge an exit fee for this product	n/a
Ongoing Costs	Management fees and other administrative or operating costs	2.94% of the value of your investment per year. This percentage is based on actual costs over the last year.	294 EUR
	Transaction costs	0.05% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell	5 EUR
Incidental Costs	Performance fees	There is no performance fee for this Sub-Fund	n/a
	Carried Interest	There is no carried interest for this Sub-Fund.	n/a

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended holding period (RHP): 5 years

The recommended holding period of 5 years has been selected for illustrative purposes only and must not be taken as a guarantee or an indication of future performance, return or risk levels. You can redeem your investment without penalty at any time, however an Early Redemption Fee of up to 2% on the Net Asset Value per Share may be imposed (at the discretion of the directors) where a redemption takes place within 12 months of the shareholder's initial subscription.

A Class Shares can incur a Promoter Fee which amounts to 1% of the Net Asset Value attributable to each subscription. If charged this Promoter Fee is amortised per valuation point for the first 60 months of the investment. If an investment is redeemed prior to being held for 60 months then the full Distribution Charge would still be levied. The Directors reserve the right to waive or modify the Distributor Charge. Thus, we recommend that you discuss this with your financial advisor.

## HOW CAN I COMPLAIN?

The Investment Manager has established and implemented appropriate procedures and arrangements to ensure that it deals promptly and reasonably with investor complaints. The Investment Manager's Complaints Handling Procedure is available on the website [www.ariacm.com](http://www.ariacm.com). If you are dissatisfied with any part of the service, you have received you may make a complaint in writing to [complaints@ariacm.com](mailto:complaints@ariacm.com) or to your closest ARIA office which can be found at [www.ariacm.com](http://www.ariacm.com)
