Past Performance

This information shows the share class's performance as the percentage loss or gain per year(s) against its benchmark over the past six years. Past performance is not a reliable indicator of future performance. Markets could develop very differently in the future. It can help you to assess how the fund has been managed in the past and compare it to its benchmark. Where past performance is not shown there is insufficient data to provide a Useful indication of past performance or the share class has not been opened.
